

• PARTNERSHIP PROPOSAL · FOUNDER-TO-FOUNDER · FOR DR. SANDIP PATEL

A first-of-its-kind partner program built around Docthub.

Halcyon Medical Billing manages the full revenue cycle for US independent medical practices. You don't have US practice owners on Docthub. We know that. **This proposal is structured around what you actually have** — a 9,000+ recruiter network, an enterprise platform serving 30+ healthcare institutions, and a respected brand inside India's medical professional community. Three tracks. Real economics. Honest framing.

WHY WE'RE WRITING

A founder-led healthcare brand with a structural gap we can help close.

Before we propose anything: we did our homework. Docthub is a bootstrapped, founder-led platform that has built genuine credibility across India's healthcare professional community — jobs, courses, events, association memberships. What you *don't* have, by design, is a third-party partner program monetising that audience for adjacent services. That's the gap this proposal closes.

SIGNAL · 01

9,000+ recruiters · 54K+ jobs · 100K+ app installs.

The Docthub audience is a serious distribution surface inside India. But every monetisation line so far is an extension of recruitment, courses, or events — you've never run a third-party services partner program.

SIGNAL · 02

Bootstrapped, founder-led, capital-efficient.

₹1.63 Cr FY25 revenue, ~50 employees, no external funding. Adding a near-zero-marginal-cost revenue line that generates recurring cash with no operational lift fits the bootstrap thesis better than any paid expansion lever you have today.

SIGNAL · 03

JIC 2025, Wockhardt, Era University, BJ Medical.

The enterprise side of Docthub has shown it can deliver for large healthcare clients. That credibility is the asset we want to leverage — specifically into India's medical recruiter network and into the Indian-American physician community.

The honest framing: the 100K+ Indian doctors who use Docthub are *not* Halcyon's direct buyers — they don't run US practices. So this isn't a "blast our offer to your audience" pitch. We've structured a three-track partnership around relationships you actually have: your **recruiter network**, your **India hiring channel**, and your **credibility inside Indian-American medical associations**.

WHAT HALCYON IS

A HIPAA-compliant revenue cycle for **independent** US medical practices.

Halcyon Medical Billing LLP runs the full billing cycle for 1–10-provider US clinics: eligibility, coding, claim submission, denial work, payment posting, AR follow-up, patient billing. Field-level PHI encryption. Append-only audit trail. Real-time client portal. The standard hospitals operate on, delivered to small clinics that can't afford to build it themselves.

COMPLIANCE

Registered LLP · BAA stack

HIPAA + HITECH compliant. BAAs executed with every vendor. Lawyer-reviewed MSA. No PHI flows through partners; you remain a non-BA at all times.

BUYER FIT

1–10 provider clinics, 6 specialties

Primary care, internal medicine, cardiology, psychiatry, orthopedics, family medicine. Indian-American physicians own a disproportionate share of these.

CHANNEL ECONOMICS

25% upfront + 10% recurring · forever

Per signed practice: ~\$1,625 upfront and ~\$650/mo recurring at our average client size. No cap. No expiry. Auto-paid via wire/ACH.

THE PROPOSAL AT A GLANCE

Three tracks. Each shippable on its own. Each pays Docthub.

TRACK	WHAT DOCTHUB PROVIDES	WHAT HALCYON PAYS	CASH PROFILE	OWNER AT DOCTHUB
A · India Hiring Channel	Paid recruiter account on Docthub Jobs + co-branded "RCM careers" microsite	Standard recruiter fees + ₹2.5L sponsorship Yr-1	Up-front + retainer	Manish Kumar (BD)
B · Recruiter Sub-Channel	Email/in-app intro to opted-in recruiters in your 9K+ network	25% / 10% commission, with 20% override to Docthub	Recurring · annuity	Sandip + Manish
C · Diaspora Association Intros	Warm intro letter to AAPI / specialty Indian-American medical societies	25% / 10% direct commission · Halcyon-funded events	Recurring · annuity	Dr. Sandip Patel (founder-level)

Track A is the "no-regrets" leg: we'd run the India RCM hiring channel through Docthub Jobs whether or not the rest of the partnership lands. It's clean, transactional, and pays you upfront. **Tracks B and C are where the recurring upside lives** — and they only require Docthub to *introduce*, not to sell. Halcyon's team carries every conversation from intro through contract.

WHAT DOCTHUB STANDS TO MAKE

Three-track revenue model. Conservative assumptions throughout.

TRACK	YEAR 1 (BUILD + LAUNCH)	YEAR 2 (STEADY-STATE)	YEAR 3 (SCALED)	5-YR CUMULATIVE
A · India Hiring Channel Recruiter fees + Halcyon retainer	₹6.5 L	₹9 L	₹12 L	₹52 L
B · Recruiter Sub-Channel 2/4/8 closed practices · 20% Docthub override	₹3 L	₹14 L	₹35 L	₹1.65 Cr
C · Diaspora Intros 3/8/15 closed practices · direct commission	₹26 L	₹95 L	₹2.1 Cr	₹8.2 Cr
Combined	~₹35 L (~\$42K)	~₹1.18 Cr (~\$140K)	~₹2.57 Cr (~\$305K)	~₹10.4 Cr (~\$1.24M)

Assumptions: \$130K avg US practice monthly collections · 5% Halcyon billing rate · 35% Year-1 commission, 10% recurring after · 95% 3-yr retention · Docthub sub-channel override is 20% of Halcyon's gross channel commission to a sub-partner recruiter · Diaspora-track close rate of 18-22% on warm AAPI/Indian-American intros, vs <5% cold · 5 Halcyon FTE hires through Docthub in Yr-1 scaling to ~25 by Yr-5 · INR/USD 84.5. **This is a mid case** — we have downside (\$16K Yr-1) and upside (\$90K Yr-1) variants in the appendix on request.

What "₹10.4 Cr cumulative over 5 years" really represents: a ~6.4x multiple on Docthub's current ₹1.63 Cr annual revenue, generated from *existing relationships* with no new product builds, no headcount, and no marketing spend on Docthub's side. That's the structural pitch.

WHAT WE'RE ASKING

A 25-min founder call. Then start with Track A.

One call. Naitik (CEO) + me on Halcyon's side, Sandip + Manish on Docthub's side. We'll walk through the integration spec for Track A (the immediate-cash leg) and a soft-launch plan for Tracks B and C. Decision out of the call: yes/no on a 90-day pilot of Track A, no commitment to B/C until A proves out.

STEP · 01

25-min founder-to-founder call

No deck on the call. Spec walkthrough only. Halcyon brings: Track A retainer terms, the Referral Partner Agreement template, and target hires for FY26.

STEP · 02

Track A pilot · 90 days

Halcyon onboards onto Docthub Jobs as a paid recruiter. We make 5 RCM hires in 90 days through your platform. You collect recruiter fees + retainer. Day-60 review on B/C.

STEP · 03

Open Tracks B and C

If Track A delivers, we light up the recruiter sub-channel and the diaspora-association intros. Halcyon funds AAPI sponsorships; Docthub gets co-branded presence.

REPLY WITH AVAILABILITY BEFORE 27 MAY 2026 · RUSHAN@HALCYONMEDBILLING.COM

COUNTERPARTS ON THE CALL

Founder-to-founder. No middle layer.

CEO & CTO · HALCYON

Naitik Joshi

Founder. Architected Halcyon's HIPAA portal, encryption layer, and the 12-step RCM workflow. Handles every demo personally. Your direct counterpart for product and operating-model questions.

COO · OPERATIONS

Ankit Chauhan

Owns billing operations and the specialist team. Will lead the India hiring spec for Track A — coders, AR callers, RCM analysts.

CFO · SENDER

Rushan Khan

Owns commercial & partnership economics. Direct counterpart to Sandip and Manish on this proposal. Reply to rushan@halcyonmedbilling.com.

COMPLIANCE & COMMITMENTS

- Halcyon Medical Billing LLP — registered, audited, in good standing
- HIPAA + HITECH compliant; field-level PHI encryption
- Docthub is not a Business Associate under HIPAA — no PHI flows
- 30-day sunset on the umbrella agreement, either party
- India hiring runs through Docthub Jobs at standard rates — no exclusivity required
